

A stylized white logo consisting of two large, overlapping 'A' shapes with thin lines connecting them at the top and bottom, resembling a plant or a decorative flourish.

AMARILDE

ABOUT AMARILDE

Amarilde was born from the desire to create a young brand defined by sartorial care and refined design, entirely made in Italy using fine fabrics. The brand speaks to women of all ages, with garments designed to accompany them through every moment of the day.

The name Amarilde is inspired by the Amaryllis, a flower that symbolizes elegance, beauty and rebirth. Our logo — from which the pistils of the flower gently open — carries a powerful visual message: an identity that blooms with grace, strength and awareness.

Amarilde was created with the intention of offering an alternative to fast fashion, embracing a concept of luxury rooted in quality, authenticity and lasting value.

We believe in artisanal craftsmanship, in the responsible selection of materials, and in the creation of garments designed to stand the test of time — for women who choose to wear beauty with intention.

THE CONCEPT OF THE SUIT

The suit has long been a symbol of feminine elegance.

At Amarilde, it becomes the core of the collection — reinterpreted through refined tailoring and contemporary proportions.

Presented in two versions, with a longuette skirt featuring a soft godet or with wide-leg trousers, the Amarilde suit is designed to move effortlessly between occasions.

Each piece is developed across three size sets — S, M and L . A flexible approach that embraces individuality, comfort and personal expression.

Structured yet fluid, timeless yet modern, the Amarilde suit reflects a balance of strength and femininity — created for women who wear elegance.

CRAFTSMANSHIP AND SUSTAINABILITY

At Amarilde, every suit is the result of careful research and a deep respect for Italian craftsmanship, custodian of sartorial knowledge passed down through generations.

The collections are crafted from 100% linen — a refined natural fiber chosen for its lightness, elegance and low environmental impact. Structured yet breathable, it enhances the body's natural lines while ensuring comfort and freedom of movement.

Details reflect the same philosophy. Corozo buttons, derived from the fruit of an equatorial palm, are a sustainable and biodegradable choice, carefully dyed to match the collection's palette.

Through responsible materials and thoughtful production, Amarilde embraces a slower, more conscious approach to fashion — where quality, longevity and authenticity take precedence over quantity.

LINE SHEET

01 - LINEN PANTSUIT
