# ETHICAL & CHIC

Labolsina is not just a shopper. Labolsina was born from an idea by Margherita Vaghi, founder and creative director of the brand: to recover fabrics once used to furnish luxury hotels around the world and use them to create bags that skillfully blend the world of couture with an easy-to-wear philosophy.

It was 2010 when Margherita, a creative with a background in advertising agencies, launched the Labolsina project.

The brand name is a tribute to Spain, which has always been her great passion, where she spent many years working as an art director.

That's why every Labolsina is synonymous with exclusivity.

These are precious bags, handcrafted in Italy, in very limited editions.
